The path to the next result

WE ARE HERE

08

Research preparation

Agree the initial scope, contributors, cost and funding route.

AHEAD

09

Analysis and test planning

Assess assumptions and agree how results will be measured and evaluated.

AHEAD

10

Laboratory research

Obtain repeatable results for selected project functions.

AHEAD

11

Ground demonstrator

Test selected elements working together within an agreed scope.

LONGER-TERM HORIZON

12

Mission preparation

A longer-term horizon, dependent on evidence, partners and resources.

System performance remains to be assessed through analysis and research.

Each stage depends on earlier findings and secured resources. Timing will follow agreement on scope and funding.
